# INVITE THE LIGHT IN TO PLAY

With a soft graphic design and grid-in-textile feel, DESSO Enlaced carpet tiles brighten modern spaces and foster an inviting atmosphere. The collection draws inspiration from the playful patterns cast by grid-like structures as natural light filters through. Explore a range of light-infused colours— from neutrals to colourful accents—forming a synergistic palette for multifunctional spaces and the workplaces of the future.

ENLACED

As always, circularity is built in from the very start. We make each structured loop carpet tile from an easily disassembled combination of PA6 solution-dyed yarn with 75% recycled content and an EcoBase® backing, providing a long-lasting solution that we welcome back for recycling at the end of a life well-served.

# A SOFT, VIBRANT, AND FLEXIBLE STARTING POINT

The Enlaced Collection features 12 colours ranging from cool monochromes to warm, subdued hues, along with colourful accents. Each colour features a main shade illuminated with a bright speckled colour, creating a soft graphic appearance. The palette is designed to complement modern interiors while leaving room for experimentation—coordinate the floor with the furnishings or embrace a bolder contrast.

# ILLUMINATE FRIENDLY AND FORWARD-THINKING SPACES

Warm, clean, and modern, Enlaced plays well in tomorrow's offices, commercial spaces, and other open-plan, multifunctional interiors with floor space to cover. Mix and match within the colour palette to cast light on different space functions, inspire new ways of working, and make other interior elements pop.

# THE BEAUTY OF CIRCULARITY

At Tarkett, our approach to circularity focuses on three key areas: design, materials and circular journey. For us, the beauty of circularity is about the beauty of the reused materials that go into our products, the innovative manufacturing processes we implement, and the knowledge that we're actively cutting down on waste and greenhouse gas emissions.

# THE EVOLUTION OF ECOBASE

Over a decade ago we made a commitment to place circularity at the core of our ambitions as a company. Our carpet tiles are composed of two key components – yarn and EcoBase backing – that come together just as neatly as they can later be taken apart. As part of our continuous efforts to reduce our carbon footprint we are proud to launch a new and improved EcoBase backing, which sees a new bio-based ingredient replace a core ingredient formerly composed of petroleum-based content.

# OUR CIRCULAR CARBON FOOTPRINT

To keep track of the carbon generated and saved over a product's life cycle, we calculate and externally verify the Circular Carbon Footprint of every one of our carpet tile collections.

Together with our holistic design approach and carefully considered materials, our closed-loop system ensures that our carpet tiles record an impressively low circular carbon footprint – one we're continually working, alongside our partners and customers, to shrink even further.

Circular Carbon Footprint: according to the Environmental Product Declaration (EPD) EPD-IES-0017714 DESSO Enlaced externally verified by Bureau Veritas, based on the total carbon footprint (Modules A-D) with a closed loop circular recycling scenario.

**Tarkett Human-Conscious Design®**

Tarkett Human-Conscious Design® is our pledge to stand with present and future generations. To create flooring and sports surfaces that are good for people and for the planet. And to do it every day.

We deliver on this through the synergy of three commitments:

- 1 Deep human understanding
- 2 Conscious choices. For people and planet
- 3 With you. Every step of the way
