CREATIVITY WITH CONFIDENCE

The new DESSO Essence Elements family features three harmonious designs: Pure, Roots and Traces. Each delivers aesthetic excellence at an accessible price point. Together they enable the confident creation of expressive interiors that deliver contemporary colour, soft tactility and long-lasting utility.

EASE OF EXPRESSION

Functional, flexible and durable, the DESSO Essence Elements family can work together in combinations that enable graphic colour blocking or more subtle patterns and zones. Offering ease of expression and effortless creativity, whether you are looking to be vibrant and playful or simply sophisticated, our three designs allow you to be as inventive or pared-back as you wish.

OUR COMMITMENT TO SUSTAINABILITY

REDUCING OUR IMPACT

Always working to reduce our impact on the planet while maintaining affordability, we recognise not all our customers can currently invest in our most sustainable material innovations. DESSO Essence Elements comes as standard with our affordable ProBase backing. While not fully circular, the components can be collected via our network of ReStart partners and recycled in our carpet recycling centre. Upgrading to our EcoBase carpet tile backing ensures the collection becomes fully recyclable and Cradle to Cradle® Silver level certified with a low circular carbon footprint.*

* According to the Environmental Product Declaration (EPD) S-P-05896 - DESSO Carpet Tiles, 0% recycled PA6 + EcoBase externally verified by Bureau Veritas, based on the total carbon footprint (Modules A-D) with a closed loop circular recycling scenario.

RESTART®

Through our take-back and recycling programme, ReStart, we will collect your used carpet tiles and take them to our carpet recycling centre to separate the two principal components. The yarn is regenerated into high-quality yarn for new carpet tiles, while the ProBase backing is co-processed in the cement industry. For EcoBase backing upgrades, we can fully recycle the total carpet tile with no loss of quality.
