RESTORATIVE POWER OF NATURE

Drawing inspiration from the organic beauty of natural structures and rich pigments found in nature, DESSO Grezzo Bloom and DESSO Grezzo Vivid carpet tile collection brings the restorative power of nature indoors to create a sense of calm energy.

Mimicking the rugged textures, intricate patterns and vivid hues found in the natural world, each tile is unique – perfect for adding depth and seamless movement across expansive floor areas - or creating enduring appeal in smaller spaces.

DESSO
GREZZO BLOOM

Like a flourish of moss, or lichen strewn over stone and concrete, Bloom captures the breath-taking beauty and vibrancy found in nature, bringing muted neutral tones to life. The rugged, irregular weave forms an untamed, rock-ribbed texture, adding depth and natural movement to expansive spaces.

DESSO
GREZZO VIVID

Equally energising, Vivid has a matching colour palette and nature-inspired design - but where Bloom softens the Grezzo collection - Vivid adds definition and stylish accents to a floorplan, perfect for creating a refined finish in a variety of workspaces.

CREATIVE **FREEDOM**

Grezzo Bloom & Vivid go perfectly together. This collection presents an addition to the existing DESSO Grezzo collection to offer even more creative design freedom when designing your interior space.

OUR CIRCULAR CARBON FOOTPRINT

Our circular approach to carpet tiles enables us to reduce the emission of greenhouse gases like carbon dioxide, a major contributor to global warming.

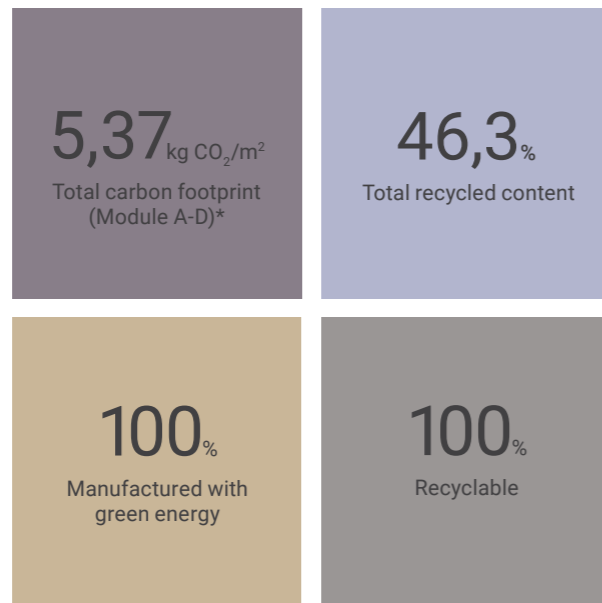

The only carpet tile manufacturer with a closed-loop recycling system, we limit the use of virgin raw materials for new products, and avoid common, carbon-emitting options such as incineration and the landfill at product end-of-life. This closed-loop system ensures that our carpet tiles record an impressively low circular carbon footprint – one we’re continually working to shrink even further.

SUSTAINABILITY CREDENTIALS

GREZZO BLOOM 9004

* According to the Environmental Product Declaration (EPD) S-P-08952 - DESSO Grezzo, DESSO Grezzo Bloom and DESSO Grezzo Vivid externally verified by Bureau Veritas, based on the total carbon footprint (Modules A-D) with a closed loop circular recycling scenario.
