| PRODUCTS | |
| Touch | 10 |
| Relax | 16 |
| Look | 36 |
| PRACTICAL | |
| Technical information | 142 |
| Accessories | 144 |
| Easy installation | 146 |

| Type of subfloor - Installation | Fully Glued | Semi-Glued | Loose Lay |
|--|---|---|------------------------------|
| | ✓ | ✓ | ✓ |
| NEW SUBFLOOR | The subfloor must be level, flat, clean, free from marks (no felt pen, marker of any type, ballpoint pens, paint, etc., that could cause discoloration due to migration), dry, solid, smooth and not exposed to moisture. Absorbency must be checked and corrected if needed with an appropriate primer or levelling compound. | | |
| Linoleum coverings | ✓ | ✓ | ✓ |
| Existing flooring must be in good condition (no disbonding, no cracks...) and cleaned (grease and dust removed). Vinyl Rolls is not recommended for installation on very flexible plastic coverings (textile or foam backing). | | | |
| Old Vinyl floor covering | ✗ | These would be very flexible plastic coverings (textile or foam in the backing). Please remove any existing vinyl covering before installation. | |
| Carpet and other textile coverings | ✗ | Remove the flooring before the installation | |
| | ✓ | ✓ | ✓ |
| Where there are no joints and the strips are not loose; any loose plank must be secured. | | | |
| Parquet and laminate flooring (glued down and floating) | Make sure to sand and vacuum existing wooden flooring before installation. If there is a risk to block humidity in the subfloor, glued installation is not recommended. | - | - |
| | ✓ | ✓ | ✓ |
| Ceramic tiled flooring | Installation on tiles could cause telegraphing effect (visible joints of tiling on the Vinyl Rolls surface). That's why Vinyl Rolls is not recommended on tiling. A leveling compound has to be used first to ensure level and flatness. When joints are not visible, loose laying or gluing can be admitted. Grease and dust have to be removed. | | |
| Type of floor | Fully Glued | Semi-Glued | Loose Lay |
| With textile backing (Relax) 320T and 280T | ≥ 50m ² | < 50m ² with joints | < 50m ² no joints |
| With textile backing (Relax) 220T | ≥ 25m ² | ≤ 25m ² with joints | < 25m ² no joints |
| With foam on the back (Touch/Look) | ≥ 25m ² | ≤ 25m ² | < 12m ² |
| Accessories to be used for installation | Tarko Spray | For Semi Glued and loose laid installation, double sided tape adhesive is recommended. The aim is to ease the installation, to maintain the floor in place and when installed to secure it. | |

- Exclusive technique to synchronize the embossing with the design, **only available at Tarkett**
- 18 colours available including 4 new colours (2 designs)
- Using a product construction adapted to Home and Light Commercial (class 32)

A collection designed to suite the end user's need

In the heart of inspiration

- Premium designs and colours in **woods**, **ceramic tile** and **Allovers**
- Structured offer in **4 major Design trends**: Minimalist Elegance - Poetic Vibration - Natural Simplicity - Nostalgic Feeling
- **HD design** patterns (e.g. extra-long planks, matt colour effect on surfaces...)
- **More than 10 high-end embossing possibilities** bring an additional added value to the final rendering

Focus on the User's close and general environment

- **Phthalate-free** technology and **low VOC** emissions (10 times lower than strictest European standards) for an **improved indoor environment** and **air quality**
- 4 product profiles containing **recycled** material
- All raw materials used in our products are carefully selected out of materials compliant with food legislations as well as it creates a safe environment for children and adults alike.
- **REACH** compliant

High performing quality

- **Extreme & Supreme** surface treatments on 100% of the ranges for **stronger resistance**, **easier cleaning** and **better hygiene properties**
- Outstanding **durability** and **maintenance** properties
- Manufactured in Tarkett plants in Luxembourg and Germany (except Touch: Eastern Europe's Tarkett plant)

10 Healthy home tips

to help improve their indoor air quality

- Open windows as often as possible
- Remove dust regularly
- Ventilate rooms that tend to become humid
- Rearrange furniture regularly
- Daily maintenance: sweep or vacuum your floor
- Periodical cleaning: use warm water and natural ph-neutral cleaning products to wash your flooring (Detergents are an important source of indoor-air-pollution)
- Avoid floors that tend to have cracks and seams
- Use ecological spray glue or adhesive-free floors
- choose a healthy and hygienic solution like vinyl!

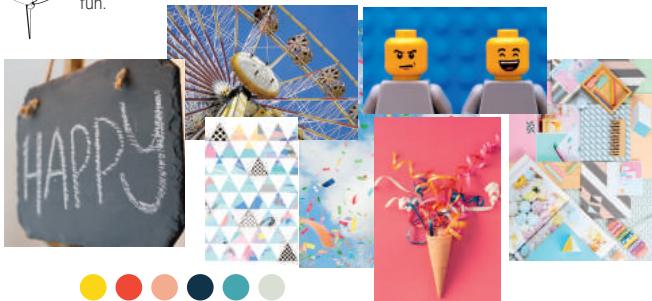

DESIGN INSPIRATION

Lookbook 2018/19 by Tarkett Design®

oh happy days!

Joyful design and happy spaces that will delight users with a twist of fantasy and fun.

celebrating seasons,

a desire for simplicity, with a slow, ecological, minimalistic vibe that brings us close to nature.

Today users consume in a different way. Having life experiences and sharing them has become of greater value than ever. We love belonging to communities that gather and share interests, passions and values.

We have identified 4 trends illustrating these new ways of life.

new folk

, a warm, convivial and multicultural mood. The focus is on the pleasure of being together, and letting one's creativity and personality express themselves freely.

soft silence

, a plunge into experimental and design-forward luxury that is delicate and precious.

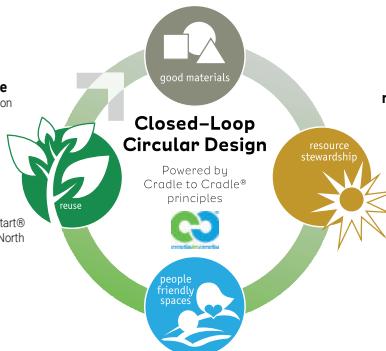

BUILDING A SUSTAINABLE FUTURE

Sustainability is deeply embedded in our vision, where we aim to develop innovative flooring solutions for better living spaces, that create value for our customers and enhance their wellbeing, whilst respecting the environment.

That is why we are moving from the linear economy of take, make and dispose model to a collaborative and circular economy where goods and materials are designed to be taken back, recycled, remanufactured or reused in a continuous and positive closed loop system. Our sustainable design approach focuses on four key pillars:

Use good materials
that are safe for people and the environment and that can be reused as ingredients in new products. Since 2010, 80%¹ of our total raw materials have been assessed in accordance with Cradle to Cradle® principles.

Recycling and reuse
Our circular economy vision is to develop closed loop recycling and reuse systems for all our products. To achieve this we are working in collaboration with our customers and partners through our ReStart® programs in Europe and North America.

Products that contribute to wellbeing
At Tarkett, we have focused on reducing VOC emissions to contribute to a better indoor air quality. Our products have emissions from 10 to 100 times lower than the strictest European standards and regulations.

Responsible use of resources in operation
57% of manufacturing sites have implemented closed loop water circuits (or do not use water in their process). 67% of our factories have improved their energy efficiency by reducing energy consumption per m² of manufactured products.

People spend 90% of their life indoors

Health at home is important - from the food we eat, the air we breathe, to the floor we walk on. Today, choosing a floor is not only a decorative choice but also a decision for well-being. Consumers are increasingly conscious of their indoor environment. They are looking for healthy homes.

To help customers make an informed choice, each Tarkett product displays an information tag explaining the content of our products:

PHthalate FREE TECHNOLOGY

All our vinyl floorings in Europe are produced with the phthalate-free technology*. With a Phthalate-free technology and a low VOC emissions (as 10 times lower than the EU norm limitations) our vinyl floors are fully compliant with the REACH regulations and strongly contribute in improving the Indoor air quality.

LOW VOC EMISSIONS

Our new flooring collection has VOC emissions levels that are ten times lower than the strictest standards in Europe, thus contributing to better indoor air quality.

CLEAN AND HYGIENIC

Did you know that Tarkett vinyl flooring solutions don't need any detergent to be cleaned-up?

Vinyl is a practical and hygienic flooring. We've extended the use of our PUR surface treatment to all our ranges making them highly resistant and very easy to maintain with simple vacuuming/mopping and minimal use of water and cleaning products.

100% RECYCLABLE

We use recycled materials from our own production sites in our various recycling centers. We also recycle materials from other industries, and from post-installation flooring. We design the products of today to become the raw materials of tomorrow.

COLLECTIONS TARKETT TOUCH

Crafted Oak

12

Living Oak

14

Touch CRAFTED_OAK

Vintage style parquet with saw marks. It looks a bit rustic and marked. Almost like a recycled or distressed wood found in restored country homes. Oak, a noble wood, also fits perfectly in modern interiors.

- Wide, Vintage and hand-made
- Warm and comfortable
- Easy to install and maintain
- 15-year warranty

Tarkett RELAX - ESSENTIALS

Our Tarkett RELAX Essentials collection pairs the beautiful look of natural wood, slate and stone with the affordable functionality and comfort that only vinyl flooring can provide.

Essentials 280T

The Essentials 280T home vinyl rolls collection is the ideal solution for an easy renovation. Its special textile backing ensures that little defects from uneven subfloors don't show through, while also providing extra thermal and acoustic comfort to help create a cosy home. With our Extreme Protection surface treatment your floor is easy to keep clean and beautiful.

- Textile backing for easy renovation
- Excellent 19dB sound reduction
- Resistant to scuffs, scratches and stains
- 15-year warranty

TARKETT 31 VINYL FLOORINGS

Essentials 220T

The Essentials 220T home vinyl rolls collection is an affordable flooring solution for an easy renovation. Its special textile backing ensures that little defects from uneven subfloors don't show through, while also providing extra thermal and acoustic comfort to help create a cosy home. With our Supreme Protection surface treatment your floor is easy to keep clean and beautiful.

Exclusive 370 CONCEPT MIRAGE

The perfect harmony between classic and contemporary. A selection of traditional woods, associated with a classic and modern tile. The Harmony Oak is the perfect wood, elegant and timeless, in 20cm by 1m plank. The Texture tile combines the modernity of cement and the warmth of textile. The 33x33 cm dimension also brings an elegant touch to the room. With our Extreme Protection surface treatment your floor is extra resistant and easy to keep clean and beautiful.

Texture Grege

- Traditional oak & Modern Ceramic tiles
- 17dB impact sound reduction

Exclusive 300+ CONCEPT SAWN

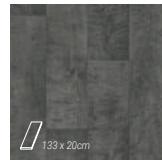

The saw marks are the signature of a handcrafted parquet and this craftsmanship contrasts with the modernity of colour-stained wood and large boards. The Exclusive 300+ Sawn home vinyl collection bridges past and present for a contemporary take on artisanal style. With our Extreme Protection surface treatment your floor is extra resistant and easy to keep clean and beautiful.

Sawn Oak Dark Grey

Austria Oak Light Grey

Exclusive 240 CONCEPT TEMPORAL

Create a sense of rhythm across your interiors with our Exclusive 240 Temporal home vinyl collection. These contemporary floors are available in two interlocking allover geometric patterns – zigzag and circle flower – in the subdued hues of light blue, grey and beige for an overall vintage feel. With our Extreme Protection surface treatment your floor is extra resistant and easy to keep clean and beautiful.

- Interlocking patterns to create movement
- Extra resistant to scuffs, scratches and stains
- Easy to install and maintain
- 15-year warranty

Exclusive 240 CONCEPT HERITAGE

Inspired by the ancient Tournai stone and rustic woods of oak and pine, the Exclusive 240 Heritage home vinyl collection immediately conveys a sense of warmth and classic beauty. The Tournai stone, a dark limestone which takes its name from the oldest city in Belgium, is transformed into a polished ceramic tile design that evokes a sense of time gone by. With our Extreme Protection surface treatment your floor is extra resistant and easy to keep clean and beautiful.

-  ■ Rustic wood and stone designs
- Extra resistant to scuffs, scratches and stains
- Easy to install and maintain
- 15-year warranty

THE RIGHT ACCESSORIES FOR INSTALLATION AND FINISHING

Spray adhesive – Tarkospray

Spray acrylic adhesive for rolls.

> Key features:

Easy installation: spray and lay, no tools required
Quick solution: installation 70% faster
Eco-friendly: non toxic, 0 CFC, non flammable, easy removal at end of life

> Packaging: 1 box = 12 bottles, 1 bottle = 12m²

Transition profile

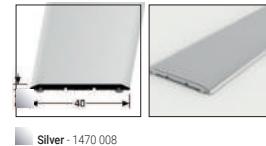

SELF-ADHESIVE TRANSITION PROFILE – MT40SA

Self-adhesive aluminium threshold strip to provide a transition between flooring materials of similar thickness (thickness difference: 1 mm).

> Key features:

Easy and quick installation: self-adhesive surface
Elegant finish with sophisticated colors.

> Size: 40 mm wide x 2 mm thick x 2700 mm long

Silver - 1470 008

Self-adhesive decorative skirtings

SEMI-RIGID SKIRTING – KS61

Self-adhesive semi-rigid skirting for decorative use with upper and lower soft lips.

> Key features:

Smooth surface
Easy installation: semi-rigid and self-adhesive structure
Easy cleaning and maintenance

> Size: 60 mm high x 15 mm thick lower lip x 2500 mm long

Medium Grey - 1461 009
Light Grey - 1461 011
Very Light Grey - 1461 012
Dark Brown - 1461 013

FLEXIBLE SKIRTING – ISF 60

Self-adhesive flexible skirting for curved walls and pillars with upper and lower soft lips.

> Key features:

Easy installation: both sides self-adhesive and flexible structure
Floor covering to be inserted for perfect colour-matching

> Size: 60 mm high x 7 mm thick lower lip x 2500 mm long

White - 1463 007
RAL: 9016 / NCS: S0300-N
Silver Grey - 1463 002
RAL: 7004 / NCS: S4000-N
Steel - 1463 003
NCS: S4500-N

Stair nosing

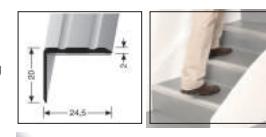

SELF-ADHESIVE STAIR NOSING – MSN24SA

Self-adhesive decorative stairnose, made of aluminium with ribes.
Long riser fitted over covered stairs alongside platforms such as stands and podium.

> Key features:

Ribbed surface for slip-resistance
Quick and easy installation: self-adhesive surface
Elegant visual finish

> Size: 20 mm high x 24.5 mm wide x 2 mm thick x 2700 mm long

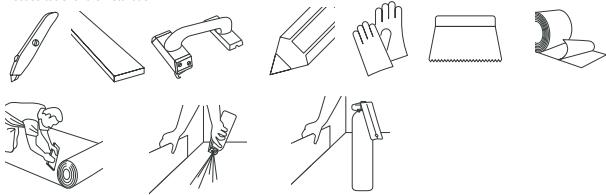

Silver - 1434 001

EASY INSTALLATION PRODUCTS

for more detailed instruction, please refer to our detailed installation instructions

- Floor covering exclusively for interior residential use.
- Contact your Tarkett retailer if you are unsure about any part of the installation.
- Store the 2m rolls upright in a safe position and the 3 or 4m rolls laid on the floor.
- The subfloor must be flat, level, clean, without marks (no felt pen, marker, etc.), sound, dry, solid, hard, smooth and not exposed to moisture (humidity rising). Absorbency must be checked.
- Use adhesives recommended by Tarkett. Always follow the adhesive manufacturer's instructions.
- The installation must be completed with a thorough-cleaning and make sure that the newly laid floor is free from adhesive residues.
- This information is subject to change due to continuous improvement.
- Needed tools for the installation:

Prepare

Check the subfloor and prepare it if needed (please check next page for preparation).

Leave the vinyl roll at least 24 hours in a minimum room-temperature of 15°C.

Unroll

The floor should run parallel to the incoming light in square rooms, and along the length of the room in narrow rooms.

The sheets should be laid so that joints do not coincide with doorways.

It is recommended to let the Vinyl sheet relax unrolled in place 24h before final installation.

Adjust

Place the floor in the right positioning.

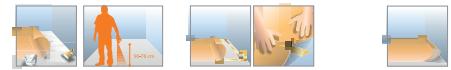

Cut excess vinyl on the outskirt

Secure the edges (including joints in the middle of the room) with double tape on the sides, for a semi-glued or a loose lay installation.

Clean your vinyl floor with hot water and a neutral cleaning product and then rinse.

HEALTHY HOME TIPS TO HELP IMPROVE THEIR INDOOR AIR QUALITY

- Open windows as often as possible
- Remove dust regularly
- Ventilate rooms that tend to become humid
- Rearrange furniture regularly
- Daily maintenance: sweep or vacuum your floor
- Periodical cleaning: use warm water and natural ph-neutral cleaning products to wash your flooring. Detergents are an important source of indoor air-pollution
- Avoid floors that tend to have cracks and seams
- Use ecological spray glue or adhesive-free floors
- Choose a healthy and hygienic solution like vinyl!

| Type of subfloor - Installation | Fully Glued | Semi-Glued | Loose Lay |
|--|---|---|------------------------------|
| NEW SUBFLOOR | ✓ | ✓ | ✓ |
| | The subfloor must be level, flat, clean, free from marks (no felt pen, marker of any type, ballpoint pens, paint, etc., that could cause discoloration due to migration), dry, solid, smooth and not exposed to moisture. Absorbency must be checked and corrected if needed with an appropriate primer or levelling compound. | | |
| Linoleum coverings | ✓ | ✓ | ✓ |
| | Existing flooring must be in good condition (no disbonding, no cracks...) and cleaned (grease and dust removed). Vinyl Rolls is not recommended for installation on very flexible plastic coverings (textile or foam backing). | | |
| Old Vinyl floor covering | X | These would be very flexible plastic coverings (textile or foam in the backing). Please remove any existing vinyl covering before installation. | |
| Carpet and other textile coverings | X | Remove the flooring before the installation | |
| Parquet and laminate flooring (glued down and floating) | ✓ | ✓ | ✓ |
| | Where there are no joints and the strips are not loose, any loose plank must be secured. | | |
| Ceramic tiled flooring | ✓ | ✓ | ✓ |
| | Installation on tiles could cause telegraphing effect (visible joints of tiling on the Vinyl Rolls surface). That's why Vinyl Rolls is not recommended on tiling. A leveling compound has to be used first to ensure level and flatness. When joints are not visible, loose laying or gluing can be admitted. Grease and dust have to be removed. | | |
| Type of floor | Fully Glued | Semi-Glued | Loose Lay |
| With textile backing (Relax) 320T and 280T | ≥ 50m ² | < 50m ² with joints | < 50m ² no joints |
| With textile backing (Relax) 220T | ≥ 25m ² | ≤ 25m ² with joints | < 25m ² no joints |
| With foam on the back (Touch/Look) | ≥ 25m ² | ≤ 25m ² | < 12m ² |
| Accessories to be used for installation | Tarko Spray | For Semi Glued and loose laid installation, double sided tape adhesive is recommended. The aim is to ease the installation, to maintain the floor in place and when installed to secure it. | |

LIVING WITH UNLIMITED CREATIVITY

Tarkett is a global leader in innovative flooring solutions that generate value for customers in a sustainable way. Our balanced business model is supported by a decentralized organization and a shared commitment to sustainability, ethics and excellence.

We offer customers one of the broadest product portfolios in the flooring and sports surface industry, providing integrated and coordinated solutions to professional and residential end-users all over the world.

Our 34 industrial sites, 12,000 employees and sales in 100+ countries put us in close contact with customers and suppliers everywhere in the world. Globally, we drive operational excellence, commitment to our values and innovation, while empowering local teams to manufacture and design products and services suited to local customer needs and trends.

Tarkett is also committed to protecting our planet and bringing a sustainable lifestyle to all people, while addressing society challenges such as urbanization, population aging and resource scarcity. We aim to contribute to people's well-being and to the development of the circular economy powered by the Cradle to Cradle® principles, in partnership with external players.
